

COMPANY PROFILE

A Little Bit About Us

Our History

Our promoters and partners bring over 30 years of experience in information technology across both hardware and services. This expertise ensures uncompromising quality in hardware selection and a strong focus on timely, reliable service. As a result, Auxo Customer Care offers lifetime telephonic support for all Auxo products.

Our Presence

As we work toward establishing a presence across cities throughout India, our head office is strategically located in Mumbai, the nation's economic capital. This central base supports our operations and growth, complemented by a strong network of channel partners in Bangalore, Hyderabad, Pune, Surat, and Nagpur, enabling us to serve customers efficiently across multiple regions.

Our Work

We have successfully automated over 2,000 homes and continue to deliver automation solutions to more than 100 homes each year. Our team supports customers at every stage—from initial planning and provisioning to execution, user training, and, most importantly, reliable after-sales service

Why Us

With over 30 Years of experience in the field of Information Technology, we provide the most extensive of solutions, keeping the clients requirements and future planning in mind

Customer Satisfaction

Our first rule is to ensure our clients get exactly what they want / need. Our team understands the requirements and suggests a solution accordingly.

Service With A Smile

Our engineers are trained to provide the best solutions in the shortest amount of time, whether it be on call or onsite.

Honesty & Clarity

We ensure the client is well aware of the products that they intend to purchase. Our clients trust and faith is what keeps us running.
